

# LeTourneau University Electrical Engineering, Computer Engineering, and Biomedical Engineering Sponsor Application

*Every Work Place Every Nation*

## Goal: LeTourneau University Senior Design

---

Letourneau University Electrical Engineering Senior Design Program engages our senior students in solving real-world, engineering problems for our sponsors. These sponsors include corporate, government, and non-profit mission organizations. Students in our electrical engineering school are required to complete a full year of senior design project. These senior design teams are usually cross-functional teams. So, such disciplines as mechanical, material joining, civil engineering, computer science engineers may be a part of the project. The goals of our senior design teams are to provide real world solutions to real world problems, and provide our students hands on, real time experience.

## Sponsoring senior design project

---

- Senior Design Projects run September–May.
- All Intellectual Property resulting from the senior projects belongs to the sponsor. *(Note: There might be an exception depending on the project condition and its agreement.)*
- Fees paid by the sponsor cover materials
- Senior Design teams consist of 4–5 or more senior students with junior students.
- Each team has a faculty adviser as a mentor who has an academic interests and strengths.

## Sponsor Session

---

- **Company Name:**
- **Responsible Person's Name/Position:**
- **Estimated Budget sponsor can provide and support: USD**
- **Suggested Project Description:**
- **If you have an interest in sponsoring a project, please contact Dr. Joonwan Kim at (903) 233-3920 or email at [joonwankim@letu.edu](mailto:joonwankim@letu.edu)**
