MASTER IN BUSINESS ADMINISTRATION

LeTourneau University's Master in Business Administration (MBA) degree will take your career to the next level and sharpen your executive expertise. Earning your MBA at LeTourneau is a perfect way to propel your journey up the ranks of business and impact more lives through your corporate calling, from the boardroom to the break-room. As a business-driven professional, an advanced degree from LETU is the valuable investment that reaps decades of dividends.

In fact, an MBA will help you get promoted faster, and studies show MBA graduates earn more than those with undergraduate degrees. A 2011 Graduate Management Admission Council (GMAC) survey shows 73 percent of those who completed two-year full-time MBA programs and had job offers received starting offers that were higher than their annual base salary before entering business school. Studies

also show MBA holders report higher levels of job and personal satisfaction post-MBA graduation.

At LeTourneau, your advanced degree is both affordable and within reach. We understand the needs of non-traditional students like you and have designed our courses to fit your busy lifestyle. And our credentialed faculty will help you every step of the way. Conveniently complete your degree online or attend courses at one of several locations in Austin, Bedford, Dallas, Houston, Longview and Tyler, Texas.

As a LeTourneau MBA student, you will develop exceptional communication and collaboration skills, in addition to learning the quantitative and analytical know-how demanded in today's highly technical and globalized business world. Our program also expands both your knowledge and your experience in effective leadership, ethics and management, as well as accounting, economics and finance—all with a faith-based focus.
